Dear Ms. Nadler,

Thank you for your interest in the American Cancer Society's position on water fluoridation. We do have information (below) that gives a review of the possible link between fluoridation and cancer (other possible health effects of water fluoridation are not addressed in detail). However, please know that this is not intended as a position statement of the American Cancer Society as we take no official position; we simply provide unbiased information on the issue.

Water Fluoridation and Cancer Risk

<http://www.cancer.org/cancer/cancercauses/othercarcinogens/athome/water-fluoridation-and-cancer-risk>

I hope this is helpful. Thank you again for contacting your American Cancer Society.
